DIRECTORY OF COLLEGES AND UNIVERSITIES WITH FACILITIES FOR HANDICAPPED STUDENTS

The colleges and universities included in this directory provide certain basic facilities necessary for handicapped students. The selection was based on a research project completed by Kansas State Teachers College, Emporia, Kansas, which was supported in part by a research and demonstration grant, Number 812, from the Vocational Rehabilitation Administration, Department of Health, Education, and Welfare, Washington, D.C. (Permission has been received to extract.)

In the initial survey, conducted during the period 1961-1963, all institutions of higher learning having enrollments over 1,000 were contacted and the results published. We have, however, employed certain criteria in our selection and have included only those institutions evidencing at least two of these six conveniences. They are: On-Campus Housing Ramps (indicated as HR), Classroom Ramps (CR), Library Ramps (LR), Beveled Curbs (BC), Reserved Parking (RP), and Modified Toilet Facilities (MT). After employing this standard for selection, other services such as Special Counselor (SC), Regular Vocational Rehabilitation Service Visits (VR), and Adapted Physical Education (PE) were listed.

In addition to the name of the institution, we have added its location, control, length of program offered and type of student body.

Sources of Financial Information

The following chart indicates if the institution is participating in the program for the preparation of professional personnel in the education of handicapped children sponsored by the Office of Education under Public

Law 85-926, as amended. Under this program, senior year traineeships, summer traineeships and graduate fellowships are awarded to encourage the expansion of teaching and research in the education of handicapped children.

Federal financial aid programs are available at most of the institutions listed. Frequently students can work out package financial plans that may include the Work-Study Program, the National Defense Student Loan Program and the Educational Opportunity Grants Program, together with other sources of help that may be available through the college.

The College Work-Study is a program of employment in which the student, particularly one from a low-income family, is compensated for the number of hours he works for the institution or for an eligible off-campus agency.

The National Defense Student Loans is a program of borrowing, primarily for needy students, in which the student has an obligation to repay his loan, with 3-percent interest within a 10-year period following college attendance.

The Educational Opportunity Grants is a program of direct grants in which the student receives a non-obligating award of funds, based on exceptional financial need and evidence of academic or creative promise.

The Guaranteed Loans is a program of borrowing, primarily for students from middle- or upper-income families. The student has an obligation to repay his loan with 3-percent (middle income) or 6-percent (upper income) interest.

Many institutions offer other types of scholarships, student loans, employment and work-study plans.

Students interested in applying for any of these benefits should apply directly to the college or university of their choice.

Each of the 50 State education agencies participate in the Federal program for the preparation of professional personnel in the education of handicapped children. In addition, many States offer local scholarships and loans. For further information regarding State financial assistance, one should communicate with the State Department of Education.

The National Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois 60612, and the United Cerebral Palsy Research and Education Foundation, 321 West 44th Street, New York, New York 10036, have available scholarships.
